

# **TC Workshop on Probabilistic Safety Assessment (PSA) Methodologies and Review Practices**

Hosted by

**The Government of Czech Republic**

**through the**

State Office for Nuclear Safety  
Prague, Czech Republic

**11 September 2017 - 15 September 2017**

Ref. No.: RER9134-1701467

## **Information Sheet**

### **A. Purpose**

The purpose of this workshop is to provide a forum for discussions on PSA methodologies and review practices. A special emphasis will be placed on the discussions on PSA methodologies, review practices, and evolution of PSA models, as well as on national experience of Member States in applying them.

### **B. Working Language(s)**

The working language(s) of the event will be English.

### **C. Deadline for Nominations**

Nominations received after 10 July 2017 will not be considered.

## **E. Scope and Nature**

The workshop will consist of presentations by invited experts and participants on the topics related to PSA methodologies and national practices on PSA review. Participants are expected to deliver detailed presentations on their national or, if appropriate, plant-specific practices (or plans) relevant to the topic of the workshop. In addition, all participants will contribute to discussions on selected issues of common interest. The IAEA requests that the participants prepare national presentations.

## **F. Participation**

The meeting is open to 20 participants from Member States.

Each country is invited to nominate **one or more participants** who must match the profile described in the corresponding paragraph, indicating the order of priority.

## **G. Participants' Qualifications and Experience**

The participants should be specialists in Probabilistic Safety Assessment employed by utility organizations, plant operating organizations, technical support organizations or regulatory bodies.

## **H. Application Procedure**

Candidates wishing to apply for this event should complete their applications on the InTouch+ platform (<https://Intouchplus.iaea.org>). Should this not be possible, nominations may be submitted on a [TC Nomination Form for Meetings](#). Applications should contain sufficient information to establish that the nominees have the required qualifications. Completed applications need to be endorsed by the relevant national authority, i.e. the National Liaison Office and submitted through the established official channels.

## **I. Administrative and Financial Arrangements**

Nominating authorities will be informed in due course of the names of the candidates who have been selected, and will at that time be informed of the procedure to be followed with regard to administrative and financial matters.

Selected participants will receive an allowance from the IAEA sufficient to cover their costs of lodging, daily subsistence and miscellaneous expenses. They will also receive either a round-trip air ticket based on the most direct and economical route between the airport nearest their residence and the airport nearest the duty station through the IAEA's travel agency American Express, or a travel grant, or they will be reimbursed travel by car/bus/train in accordance with IAEA rules for non-staff travel.

## **J. Disclaimer of Liability**

The organizers of the event do not accept liability for the payment of any cost or compensation that may arise from damage to or loss of personal property, or from illness, injury, disability or death of a participant while he/she is travelling to and from or attending the course, and it is clearly understood that each Government, in approving his/her participation, undertakes responsibility for such coverage. Governments would be well advised to take out insurance against these risks.

## **K. Note for female participants:**

Any woman engaged by the IAEA for work or training should notify the IAEA on becoming aware that she is pregnant.

The Board of Governors of the IAEA approved new International Basic Safety Standards for Protection against Ionizing Radiation and for the Safety of Radiation Sources. The Standards deal specifically with the occupational exposure conditions of female workers by requiring, inter alia, that a female worker should, on becoming aware that she is pregnant, notify her employer in order that her working conditions may be modified, if necessary. This notification shall not be considered a reason to exclude her from work; however, her working conditions, with respect to occupational exposure shall be adapted with a view to ensuring that her embryo or foetus be afforded the same broad level of protection as required for members of the public.

## **N. Organization**

Programme Management Officer: Mr Alfredo Bano Leal  
Division for Europe  
Department of Technical Cooperation  
International Atomic Energy Agency  
Vienna International Centre
