National Liaison Officer/National Coordinator

2017-10-05

Subject: RER9137- TC Regional Training Course in the application, the use and the maintenance of laboratory instruments for differentiation and quantification of radioisotopes in animals and animal products, Gomel (Homel), Belarus from 27 November 2017 to 8 December 2017

Dear National Liaison Officer/National Coordinator,

I am pleased to inform you that the International Atomic Energy Agency (IAEA) is organizing the above event under the IAEA technical cooperation project RER9137, "Enhancing National Capabilities for Response to Nuclear and Radiological Emergencies".

The purpose of the event is to train participants in the application, the use and the maintenance of laboratory instruments for differentiation and quantification of radioisotopes in animals and animal products.

The Information Sheet and Logistical Arrangements available on the IAEA's InTouch+ platform provide further details, including technical and administrative aspects of the course. Selection of participants will be in accordance with IAEA procedures.

The IAEA will provide non-local participants with a round-trip air ticket based on the most direct and economical route between the airport nearest the participant's residence and Gomel (Homel). Travel details will be agreed with the participants upon receipt of their official nomination. Participants will also receive an allowance from the IAEA sufficient to cover their costs of lodging, daily subsistence and miscellaneous expenses for the duration of the course in line with IAEA rules and procedures.

We would appreciate receiving your country's nominations by **16 October 2017** through the IAEA's InTouch+ platform (<https://Intouchplus.iaea.org>). Should this not be possible, applicants may download the Nomination Form for the course from the [IAEA's webpage](#). Completed forms must be endorsed by the relevant government authority and may be sent to the IAEA by email, Official.Mail@iaea.org, and C.Henrich@iaea.org. Please be advised that late nominations or replacements of participants after the closing date for nominations will not be accepted.

We look forward to receiving your early response.

Yours sincerely,

Christoph Henrich
Project Management Officer
Division for Europe
Department of Technical Cooperation
