**Subject: Joint IAEA/ILO Regional Workshop on Occupational Radiation Protection, Ankara, Turkey from 16 to 20 April 2018**

Dear National Liaison Officer/National Coordinator,

I am pleased to inform you that the International Atomic Energy Agency (IAEA) is organizing the above event under the IAEA technical cooperation project RER9140, "Strengthening Protection of Radiation Workers and Occupational Exposure Monitoring".

The purpose of the event is to increase understanding on the contents of the occupational exposure control requirements of International Basic Safety Standards (GSR Part 3) and Safety Guides on "Occupational Radiation Protection" and how these safety standards fit within the IAEA Safety Standards hierarchy; to increase understanding on the specific requirements of International Basic Safety Standards (GSR Part 3) and Safety Guides relating to planned, existing and emergency exposure situations, and the protection of workers in special cases; and to provide information on requirements relating to assessment of occupational exposures, technical service providers, workplace controls and use of PPE, and workers health surveillance.

The Information Sheet and Logistical Arrangements available on the IAEA's InTouch+ platform provide further details, including technical and administrative aspects of the course. Selection of participants will be in accordance with IAEA procedures.

The IAEA will provide non-local participants with a round-trip air ticket based on the most direct and economical route between the airport nearest the participant's residence and Ankara. Travel details will be agreed with the participants upon receipt of their official nomination. Participants will also receive an allowance from the IAEA sufficient to cover their costs of lodging, daily subsistence and miscellaneous expenses for the duration of the course in line with IAEA rules and procedures.

We would appreciate receiving your country's nominations by **7 February 2018** through the IAEA's InTouch+ platform (<https://intouchplus.iaea.org>). Should this not be possible, applicants may download the Nomination Form for the course from the [IAEA's webpage](#). Completed forms must be endorsed by the relevant government authority and may be sent to the IAEA by email, fax or mail. Please be advised that late nominations or replacements of participants after the closing date for nominations will not be accepted.

We look forward to receiving your early response.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Y. Moysak', with a long horizontal flourish extending to the right.
