National Liaison Officer

2017-09-12

Subject: TC Training Course No 3 on the Modalities and Rules of Site Remediation Programme Management , Obninsk, Russian Federation from 13 to 24 November 2017

Dear National Liaison Officer,

I am pleased to inform you that the International Atomic Energy Agency (IAEA) is organizing the above event under the IAEA technical cooperation project RER9145, "Supporting Human Resource Capacity Building for Developing and Implementing Integrated Programmes for Remediation of the Areas Affected by Uranium Mining".

The purpose of the training course is to provide general elements of planning, implementation and management of environmental remediation (ER) projects focusing on uranium mining and processing legacy sites.

The Information Sheet available on the IAEA's InTouch+ platform provide further details, including technical and administrative aspects of the course. Selection of participants will be in accordance with IAEA procedures.

Selected participants will be provided with a round trip economy class air ticket from their home countries to Obninsk, Russian Federation, and a stipend sufficient to cover the cost of their accommodation, food, and minor incidentals.

We would appreciate receiving your country's nominations by **30 September 2017** through the IAEA's InTouch+ platform (<https://Intouchplus.iaea.org>). Should this not be possible, applicants may download the Nomination Form for the course from the [IAEA's webpage](#). Completed forms must be endorsed by the relevant government authority and may be sent to the IAEA by email, fax or mail. Please be advised that late nominations or replacements of participants after the closing date for nominations will not be accepted.

We look forward to receiving your early response.

Yours sincerely,

Jing Zhang
Section Head
TC Division for Europe
Technical Cooperation Department
