Subject: IAEA/ESTRO Training Course on Image-Guided Radiotherapy and Chemotherapy in Gynaecological Cancer: Focus on MRI Based Adaptive Brachytherapy, Cluj-Napoca, Romania from 12 to 16 October 2019

Dear National Liaison Officer/National Coordinator,

I am pleased to invite you to send nominations of suitable candidates to participate in the IAEA/ESTRO Training Course on Image-Guided Radiotherapy and Chemotherapy in Gynaecological Cancer: Focus on MRI Based Adaptive Brachytherapy within the framework of the IAEA technical cooperation project RER6036, "Improving Radiotherapy Practices for Advanced Radiotherapy Technologies Including Quality Assurance and Quality Control". Selection of participants will be in accordance with IAEA procedures.

The IAEA will support radiation oncologists and medical physicists involved in gynaecological tumour treatments, interested in the implementation of EBRT and brachytherapy image guidance. Course participants should have specific interest in and/or initial experience with implementation of advanced MRI based brachytherapy and advanced EBRT techniques (IMRT/IGRT). The course offers both a "General track" and an "Experienced track" to meet different levels of clinical experience.

The IAEA will provide selected participants with a round-trip air ticket based on the most direct and economical route between the airport nearest the participant's residence and Cluj-Napoca. Travel details will be agreed with the participants upon receipt of their official nomination. Participants will also receive an allowance from the IAEA sufficient to cover their costs of lodging, daily subsistence and miscellaneous expenses for the duration of the event in line with IAEA rules and procedures.

We would appreciate receiving your country's nominations by **21 June 2019** through the IAEA's InTouch+ platform (<https://Intouchplus.iaea.org>). Should this not be possible, applicants may download the Nomination Form for the course from the [IAEA's webpage](#). Completed forms must be endorsed by the relevant government authority and may be sent to the IAEA, preferably by email to Official Mail - IAEA Mail address Official.Mail@iaea.org, with copy to Ms Mayumi Yamamoto, M.Yamamoto@iaea.org. Please be advised that late nominations or replacements of participants after the closing date for nominations will not be accepted.

We look forward to receiving your early response.

Yours sincerely,

Mayumi Yamamoto
Programme Management Officer
Division for Europe
Department of Technical Cooperation

Schedule of IAEA/ESTRO Courses in 2019 under the Regional TC Project RER/6/036

TITLE	COURSE DATES / LOCATION/ NOMINATION DEADLINE	SELECTION CRITERIA
<p>SP-RER6036-1806747</p> <p>IAEA/ESTRO Training Course on Target Volume Determination – from Imaging to Margins</p>	<p>2-5 June 2019 Greece, ATHENS</p> <p>Deadline: 1 April 2019</p>	<p>The IAEA will support trainees in radiation oncology and radiotherapy physics with at least one-year experience, diagnostic radiologists with an interest in cancer imaging and radiation therapists (RTTs) with special interest in contouring and treatment planning.</p>
<p>SP-RER6036-1806751</p> <p>IAEA/ESTRO Training Course on IMRT and Other Conformal Techniques in Practice</p>	<p>2-6 June 2019 Budapest, HUNGARY</p> <p>Deadline: 1 April 2019</p>	<p>The IAEA will support radiation oncologists (or last year residents in radiation oncology) and radiotherapy physicists involved in the implementation and clinical use of advanced techniques in their department. Basic knowledge of radiation physics is a prerequisite, experience in CT-based treatment planning is required. The applicants will preferably be ‘graduates’ of the ESTRO course on ‘Physics for Modern Radiotherapy’ or an equivalent training in radiation physics. Min. 2 years professional experience in radiotherapy physics is needed.</p>
<p>SP-RER6036-1806752</p> <p>IAEA/ESTRO Training Course on Evidence Based Radiation Oncology</p>	<p>24-29 June 2019 Montpellier, FRANCE</p> <p>Deadline: 29 March 2019</p>	<p>The IAEA will support radiation oncologists (final years residents and specialists), who would like to update their knowledge on current clinical practice in major treatment sites.</p>
<p>SP-RER6036-1806755</p> <p>IAEA/ESTRO Training Course on Advanced Treatment Planning</p>	<p>22-26 September 2019 Budapest, HUNGARY</p> <p>Deadline: 3 June 2019</p>	<p>The IAEA will support medical physicists working in the treatment planning area. The participants should have minimum two years of practical experience in radiotherapy physics using treatment planning systems. A good medical physics background is required.</p>

TITLE	COURSE DATES / LOCATION/ NOMINATION DEADLINE	SELECTION CRITERIA
<p>SP-RER6036-1901409</p> <p>IAEA/ESTRO Training Course on Comprehensive Quality Management in Radiotherapy – Quality Assessment and Improvement</p>	<p>13-16 October 2019 Dublin, IRELAND</p> <p>Deadline: 8 July 2019</p>	<p>The IAEA will support radiation oncologists, medical physicists, radiation therapists (RTTs) and hospital/department administrators, who may be engaged in quality management in radiotherapy. Heads of departments and team leaders highly encouraged.</p>
<p>SP-RER6036-1903520</p> <p>IAEA/ESTRO Training Course on Image-Guided Radiotherapy and Chemotherapy in Gynaecological Cancer: Focus on MRI Based Adaptive Brachytherapy</p>	<p>NEW</p> <p>12-16 October 2019 Cluj, Romania</p> <p>Deadline: 21 June 2019</p>	<p>The IAEA will support radiation oncologists and medical physicists involved in gynaecological tumour treatments, interested in the implementation of EBRT and brachytherapy image guidance. Course participants should have specific interest in and/or initial experience with implementation of advanced MRI based brachytherapy and advanced EBRT techniques (IMRT/IGRT). The course offers both a “General track” and an “Experienced track” to meet different levels of clinical experience.</p>
<p>SP-RER6036-1806757</p> <p>IAEA/ESTRO Training Course on Best Practice in Radiation Oncology - Train the RTT (Radiation Therapists) Trainers – Part II</p>	<p>14-16 October 2019 Vienna, AUSTRIA</p> <p>Deadline: 15 July 2019</p>	<p>The participants (Member States) for Part II should have participated in Part I. This is a two-year project and Part II is a follow-up of the first part to demonstrate achievements.</p> <ul style="list-style-type: none"> • Participants should represent or collaborate with the academic and clinical staff and the radiotherapy representative of their national society (if present in the country). • Participants must be familiar with the current national education programme for radiation therapists (RTTs). • Participants should commit to initiate liaison with the national education provider; prepare appropriate documentation; attend and evaluate the two face-to-face courses; maintain communication with the faculty in the interim period and design, deliver, evaluate and provide feedback on a series of educational initiatives over a three-year period.
