

# What does effective nuclear leadership look like?

## How can you prepare to lead your nuclear organization into the future?

## Apply now to the World Nuclear University's Summer Institute

Our annual immersive, five-week leadership development programme brings together nuclear professionals from around the world to share knowledge and broaden horizons.

### Benefits

As the nuclear industry grows and evolves, so do the challenges of demonstrating good leadership in a constantly changing industry. Through a mix of taught lectures, small group work in mentored, culturally and professionally diverse Working Groups, industry-focused projects, and technical site visits, Summer Institute Fellows will:

- Gain a deeper awareness of their personal leadership style
- Develop an holistic perspective of the nuclear industry
- Learn how to leverage leadership to exceed organizational goals and objectives
- Discover frameworks for building resilience into organizational culture and drive workplace innovation
- Build meaningful relationships with Fellows and mentors from around the world
- Gain access to a growing global network of Summer Institute Alumni
- Experience the host country's nuclear facilities, visit exclusive sites and interact with the local nuclear community
