

Regional Workshop on Gaps Identification in Regulatory Control of Exposure to Radiation from Consumer Products

Hosted by

The Government of Slovenia

through the

Slovenian Nuclear Safety Administration; Ministry of the Environment and
Spatial Planning (MOP)

Ljubljana, Slovenia

14 to 16 November 2022

Ref. No.: ME-RER9159-2201798

Information Sheet

Purpose

The purpose of the event is to discuss how to identify gaps in regulatory control of exposure to radiation from consumer products, and the requirements and measures to close such gaps.

Working Language(s)

The working language(s) of the event will be English.

Deadline for Nominations

Nominations received after **9 September 2022** will not be considered.

Project Background

The event is implemented under TC project RER9159 “Enhancing the Application of the Principles of Radiation Protection to Control the Exposure of the Public”, with the objective to strengthen the capacity of the Member States to protect the public from radiation exposure to consumer products, non-medical human imaging, inspection devices and commodities.

Scope and Nature

During the workshop, issues of justification, authorisation, radiation protection and safety, occupational and public protection will be covered.

Participation

The Member States are invited to nominate one or two participants. The invited participants will be requested to present and discuss national regulatory requirements and gaps in regulatory control of exposure from consumer products, aspects of occupational and public protection, technical aspects of consumer products.

Participants’ Qualifications and Experience

The nominated participants must represent authorities and organisations in charge of regulatory control, safety and authorisation of consumer products (check definition in GSR Part 3). These could be radiation safety authorities, public protection, customs control, consumer goods safety etc.

Application Procedure

Candidates wishing to apply for this event should follow the steps below:

1. Access the InTouch+ home page (<https://intouchplus.iaea.org>) using the candidate’s existing Nucleus username and password. If the candidate is not a registered Nucleus user, she/he must create a Nucleus account (<https://websso.iaea.org/IM/UserRegistrationPage.aspx>) before proceeding with the event application process below.
2. On the InTouch + platform, the candidate must:

- a. Finalize or update her/his personal details, provide sufficient information to establish the required qualifications regarding education, language skills and work experience ('Profile' tab) and upload relevant supporting documents;
- b. Search for the relevant technical cooperation event (EVT2201798) under the 'My Eligible Events' tab, answer the mandatory questions and lastly submit the application to the required authority.

NOTE: Completed applications need to be approved by the relevant national authority, i.e. the National Liaison Office, and submitted to the IAEA through the established official channels by the provided designation deadline.

For additional support on how to apply for an event, please refer to the [InTouch+ Help page](#). Any issues or queries related to InTouch+ can be addressed to InTouchPlus.Contact-Point@iaea.org.

Should online application submission not be possible, candidates may download the nomination form for the meeting from the [IAEA website](#).

NOTE: A medical certificate signed by a registered medical practitioner dated not more than four months prior to starting date of the event must be submitted by candidates when applying for a) events with a duration exceeding one month, and/or b) all candidates over the age of 65 regardless of the event duration.

Administrative and Financial Arrangements

Nominating authorities will be informed in due course of the names of the candidates who have been selected, and will at that time be informed of the procedure to be followed with regard to administrative and financial matters.

Selected participants will receive an allowance from the IAEA sufficient to cover their costs of lodging, daily subsistence and miscellaneous expenses. They will also receive either a round-trip air ticket based on the most direct and economical route between the airport nearest their residence and the airport nearest the duty station through the IAEA's travel agency American Express, or a travel grant, or they will be reimbursed travel by car/bus/train in accordance with IAEA rules for non-staff travel.

Disclaimer of Liability

The organizers of the event do not accept liability for the payment of any cost or compensation that may arise from damage to or loss of personal property, or from illness, injury, disability or death of a participant while he/she is travelling to and from or attending the course, and it is clearly understood that each Government, in approving his/her participation, undertakes responsibility for such coverage. Governments would be well advised to take out insurance against these risks.

Note for female participants

Any woman engaged by the IAEA for work or training should notify the IAEA on becoming aware that she is pregnant.

The Board of Governors of the IAEA approved new International Basic Safety Standards for Protection against Ionizing Radiation and for the Safety of Radiation Sources. The Standards deal specifically with the occupational exposure conditions of female workers by requiring, inter alia, that a female worker should, on becoming aware that she is pregnant, notify her employer in order that her working conditions may be modified, if necessary. This notification shall not be considered a reason to exclude her from work; however, her working conditions, with respect to occupational exposure shall be adapted with a view to ensuring that her embryo or foetus be afforded the same broad level of protection as required for members of the public.
