

Regional Training Course on the Implementation of the Requirements of ISO/IEC 17025:2017 (General Requirements for the Competence of Testing and Calibration Laboratories) in Secondary Standard Dosimetry Laboratories, including Risk Assessment and Internal Audits.

Hosted by

The Government of Bosnia and Herzegovina

through the

Institute of Metrology of Bosnia and Herzegovina
Sarajevo, Bosnia and Herzegovina

29 June to 3 July 2026

Ref. No.: TN-RER6046-2600237

Information Sheet

Purpose

The purpose of the event is to train the participants on the implementation of ISO/IEC 17025:2017 with emphasis on risk assessment and internal auditing of their laboratories.

Working Language(s)

The working language(s) of the event will be English.

Deadline for Nominations

Nominations received after 3 May 2026 will not be considered.

Project Background

SSDL's have to function and establish a quality management system in line with ISO/IEC 17025. In 2017 a new version of the standard was published. Some of the SSDLs in the region are still establishing and some updating their QMS according to this standard. The 2017 version introduced a concept of risk based quality management system. Internal audit is an integral part of a QMS as it ensures the vitality of the system. As such every staff member needs to understand the concept of performing internal audit and why they are important.

Scope and Nature

This regional training course will consist of focused lectures, group exercises and practical exercises with presentations and tests. Expected Outputs:SSDL staff trained in quality management system in line with ISO/IEC 17025:2017

The event is open to up to two participants (specifying order of priority) from each Member State participating in project RER6046. They must be radiation metrologist working in an SSDLs that have a QMS and are

Participation

willing to have their quality manual audited during the training exercise.

Participants' Qualifications and Experience

The event is open to up to two participants from each Member State participating in project RER6046. The participants must be from SSDLs and be radiation metrologists working in an SSDL, having or in the process of establishing their QMS. They should have at least a bachelor's in physics or equivalent. This training course is not open for regulators.

Application Procedure

Candidates wishing to apply for this event should follow the steps below:

1. Access the InTouch+ home page (<https://intouchplus.iaea.org>) using the candidate's existing Nucleus username and password. If the candidate is not a registered Nucleus user, she/he must create a Nucleus account (<https://websso.iaea.org/IM/UserRegistrationPage.aspx>) before proceeding with the event application process below.
2. On the InTouch + platform, the candidate must:
 - a. Finalize or update her/his personal details, provide sufficient information to establish the required qualifications regarding education, language skills and work experience ('Profile' tab) and upload relevant supporting documents;
 - b. Download and complete the [Designation of Beneficiary and Emergency Contact Form](#), and upload to InTouch+ ('Profile' tab under the personal section) specifying the document name. If already provided, kindly discard this step; and
 - c. Search for the relevant technical cooperation event (EVT2600237) under the 'My Eligible Events' tab, answer the mandatory questions and lastly submit the application to the required authority.

NOTE: Completed applications need to be approved by the relevant national authority, i.e. the National Liaison Office, and submitted to the IAEA through the established official channels by the provided designation deadline.

For additional support on how to apply for an event, please refer to the [InTouch+ Help page](#). Any issues or queries related to InTouch+ can be addressed to InTouchPlus.Contact-Point@iaea.org.

Should online application submission not be possible, candidates may download the nomination form

for the training course from the [IAEA website](#).

NOTE: A medical certificate signed by a registered medical practitioner dated not more than four months prior to starting date of the event must be submitted by candidates when applying for a) events with a duration exceeding one month, and/or b) all candidates over the age of 65 regardless of the event duration.

Administrative and Financial Arrangements

Nominating authorities will be informed in due course of the names of the candidates who have been selected, and will at that time be informed of the procedure to be followed with regard to administrative and financial matters.

Selected participants will receive an allowance from the IAEA sufficient to cover their costs of lodging, daily subsistence and miscellaneous expenses. They will also receive either a round-trip air ticket based on the most direct and economical route between the airport nearest their residence and the airport nearest the duty station through the IAEA's travel agency AX Travel Management, or a travel allowance, or they will be reimbursed travel by car/bus/train in accordance with IAEA rules for non-staff travel.

Disclaimer of Liability

The organizers of the event do not accept liability for the payment of any cost or compensation that may arise from damage to or loss of personal property, or from illness, injury, disability or death of a participant while he/she is travelling to and from or attending the course, and it is clearly understood that each Government, in approving his/her participation, undertakes responsibility for such coverage. Governments would be well advised to take out insurance against these risks.

Note for female participants

Any woman engaged by the IAEA for work or training should notify the IAEA on becoming aware that she is pregnant.

The Board of Governors of the IAEA approved new International Basic Safety Standards for Protection against Ionizing Radiation and for the Safety of Radiation Sources. The Standards deal specifically with the occupational exposure conditions of female workers by requiring, inter alia, that a female worker should, on becoming aware that she is pregnant, notify her employer in order that her working conditions may be modified, if necessary. This notification shall not be considered a reason to exclude her from work; however, her working conditions, with respect to occupational exposure shall be adapted with a view to ensuring that her embryo or foetus be afforded the same broad level of protection as required for members of the public.
